

Mobile Developer

zu.com is seeking a highly motivated and experienced programmer interested in working with great clients and developing iPhone and Facebook applications. Someone who is a team player that uses their knowledge to make our clients' websites better. A person who is passionate about new, mobile programming techniques and stood in line for the new iPhone.

Closing date:

Skills

Background

- * Graduate from a recognized University or College.
- * Experience with PHP, MySQL, HTML, CSS, and JavaScript.
- * Familiarity with mobile development, Ajax, or XML is an asset.
- * Awareness of the Internet, new technologies, iPhone and Facebook applications.
- * Able to program blindfolded.
- * Willingness to dress up for "Wig Wednesdays". Long-haired wigs preferred.

Programming

- * Develop and code websites, mobile devices and interactive media.
- * Provide guidance to other programmers and designers.
- * Collaborating with programming leaders in the new mobile environment.

How to apply:

- * In person: 324 Duchess Street in Saskatoon, during business hours
- * Online: email resume

Please submit a resume, cover letter, portfolio links and references.
