

Social Application Developer

VendAsta is looking for a Social Application Developer for its Web 2.0 social networking start-up. We will be starting with the development of a Facebook application and will then proceed onto Open Social. We are seeking an individual that has had previous experience implementing Facebook applications. This individual will design and implement a scalable, flexible platform to support a wide array of social networking features and functionalities. Candidates located in Saskatoon will be given preference. The salary range for this position is 60k to 70k.

Email your resume and a cover letter to: jobs-001@vendasta.com.
